

GardenHatch®

DESCRIPTION

GardenHatch® inspection chamber is stainless steel, over-drain inspection boxes, with perforated sides and removable lids.

BASIC USE

GardenHatch® inspection chamber is specifically designed to be installed over the deck drains, prior to the installation of subsequent landscaping materials (i.e., growing media) to allow for maintenance access to the drains.

INSTALLATION

GardenHatch® inspection chamber may be installed directly on the Gardendrain® element in Hydrotech's Garden Roof® Assembly or directly over the root barrier protection for the MM6125® membrane.

Vegetation-free zones (i.e., gravel) are typically required around all GardenHatch® inspection chambers.

When deeper growing media depths are required, the GardenHatch® inspection chamber's base element and lid can be combined with extension elements.

TECHNICAL DATA

Dimensions	28 cm x 28 cm (11 in. x 11 in.)
	46 cm x 46 cm (18 in. x 18 in.)
Height	12.0 cm (4 ¾ in.)

Extensions (Height)	2.5 cm (1 in.)
	7.5 cm (3 in.)
	21.6 cm (8½ in.)
